# CospiBio Pergola

by Cospicon

## CospiBio

CospiBio bioclimatic pergola can offer full sun, partial to full shade, or shelter thanks to its ingeniously designed louvered roof system. CospiBio pergola creates the kind of space where indoor and outdoor spaces are combined.

- 01. Is designed in a way that to make the most of sun and the natural circulation of air
- 02. Enables energy reductions while setting and maintaining a pleasant temperature and favoring natural light
- 03. Allows you to optimize and expand your living space and it is designed to fit in with all architectural styles and be in harmony with nature

## CospiSun Roof System

by Cospicon

By choosing CospiSun you can seal your space from the rain, and at the same time enjoy the shading of the blinds so that you can use your space all year round.

CospiSun also offers the advantage of natural light, while it is also available in a blackout version (without photopermeability).

### Multiple Benefits

The CospiSun roof system is an excellent protection choice with high aesthetics and multiple benefits.

### Details

- 01.** Fixed shading
- 02.** Easy assembling
- 03.** Free standing, wall mounted
- 04.** Lightweight construction
- 05.** High resistance to extreme temperatures  $-50^{\circ}\text{C}$  to  $+100^{\circ}\text{C}$

### Availability

Cospisun system is available from Cospicon neither as a complete solution with a frame, or as a frame cover that already exists, or as a kit in your dimensions with all the necessary support components and installation

# CospiLouvre Pergola

by Cospicon

Cospilouvre pergola allows you to adjust the louvers manually or electric and gives you control over the amount of sunlight or shade your patio or other outdoor living space receives.

On days when the weather is nice, you can open the louvers to let sunshine in. Or, if you're hosting a cook-out and it starts to rain unexpectedly, close the louvers to prevent yourself, your guests, and your barbecue area from getting wet.

### Cospilouvre Pergola

An adjustable pergola allows you to enjoy the outdoors no matter what the weather is like. From residential to commercial uses, from small patios to larger outdoor spaces, we've got you covered.

**01.** Provides protection and shade **02.** Adapts to any space to be covered  
**03.** Adds significant value to your home **04.** Manual and electrical operation

# CospiEpal Glass Wall

---

by Cospicon

The CospiEpal glass wall system offers protection, brightness and maximum visibility to the outside by sheltering the environment from rain, snow, wind and noise to experience the outdoors during the day and in the evening.

## Glass Walls

Moving glass walls are so functional and offer an easy transition from the indoor to the outdoor world. CospiEpal glass wall gives you a wide expanse connecting your indoor and outdoor living spaces. This makes your patio part of your home and your window to the world

## Weather Protection

With the CospiEpal System you can protect your outdoor space from weather conditions. This way you do not have to worry about the weather and whether it will rain as with the vertical sliding glass CospiEpal System you are 100% protected all days of the year.

### **CospiEpal Glass Wall System**

Finally, with the perimeter glass system CospiEpal, you are 100% protected from strong winds all days of the year. You can use your exterior space, and even with strong winds not to have the slightest noise annoyance.

# CospiEpalum Sliding System
